SUBJECT INDEX

ACTH
  effect of the conversion of pregnenolone to androgens, in adrenocortical cells of rabbit, 291
  effect on biosynthesis of 20α-reduced steroids, in rat adrenocortical cells, 599
Adrenals(s)
  effect of metoclopramide on secretion of, in sheep, 717
Adrenal cells
  the influence of plasma lipoprotein on steroidogenesis of culture, 425
Adrenocortical
  function in 4-APP treated rats, 487
Aldosterone
  biosynthesis and cytochrome, P-450, 693
  diurnal fluctuation in saliva, 265
  production in rat adrenal capsule, effect of angiotensin II and ACTH, 361
  vasoactive intestinal pepside stimulates secretion in rat adrenals, 203
Amniotic fluid
  evaluation of testosterone and testosterone glucuronide for foetal sex, 273
Aminoglutethimide
  inhibition of aromatase activity, in the rat, 309
5α-androstane-3α, 16α, 17β–triol
  a new Sertoli cell metabolite of testosterone, 619
Androgen(s)
  in human preovulatory follicles, 399
  receptors
    in human ovarian carcinoma, 393
    in liver of monkeys, 443
    partial purification, 535
Anti-estrogen(s)
  triphenylethylene, binding sites, 433
Aromatase
  inhibition of, activity by aminoglutethimide, 309

Breast cancer
  binding sites in, 219
  determination of dehydroepiandrosterone and its sulfate in blood and tissues, 159
  occupied and unoccupied type II estrogen binding sites in, 219
  polyamine modification in, after short treatment with tamoxifen, 169

Cholecalciferol sulfate
  in mammals, 369
Chromatin
  preferential binding of androgens to transcriptionally active, in rat prostate, 647
Congenital adrenal hyperplasia
  identification of a mineralocorticoid receptor in the urine of patients with, 207
Contraceptives
  metabolic profiles of endogenous and ethynyl steroids in urine and plasma after administration of, 609
Cortisol
  clinical use of unbound plasma, as calculated from total and corticosteroid-binding globulin, 197
  inhibition by, of human natural killer cell activity, 49
Cytochrome P-450
  and aldosterone biosynthesis, 693
  and multiplicity of progesterone 21-hydroxylase activity, 569
  a sensitive method for quantification of steroid hydroxylase of, 113
  resolution and reconstitution of, in *Rhizopus nigricans*, 499

21-Deoxycorticosterone
measurement in human plasma, 145
1α,25-Dihydroxyvitamin D_3
conjugated forms of, in rat bile, 667
Dimethylbenz (a) anthracene
stimulation of estradiol secretion by, during mammary tumor induction in Sprague–Dawley rats, 733

Endometrial cancer
determination of dehydroepiandrosterone and its sulfate in blood and tissue, 151
estradiol metabolism in Ishikawa cells, 705
progesterone receptor in, 457
Endotoxin
induced changes in sex steroid hormone levels in male rats, 67
Equilin and equilenin
biosynthesis by horse placenta, 137
Estradiol
plasma binding to, in progesterone-treated rat, 297
stimulates prolactin gene transcription in primary cultures of rat anterior pituitary cells, 451
Estramustine-binding protein
hormonal regulation of, in the submaxillary gland of the rat, 31
monoclonal antibody against, in mouse, 509
Estrogen(s)
2/4 Hydroxylase of, in porcine ovarian follicles, 121
binding macromolecules, in human plasma, 439
receptor(s)
effect of zinc on, in rat uterus, 303
hepatic, in the turtle, 41
in breast cancer, type II binding sites, 219
in human pregnancy, 473
in liver of monkeys, 443
in rat uterine and anterior pituitary, 723
nuclear binding, in the uterus of aged mice, 521
responsive, calcium-dependent arginine esteropeptidase, 189
Estrogenic steroids
structure and activity relationships of, substituted at C_{14}, C_{15}, 589
Estrone sulfate
influence of an estrone-desulfating intestinal flora on the entero hepatic circulation of, in rats, 235
sulfohydrolase in the developing brain and pituitary of rat, mouse and guinea pig, 413
Eugonadal men
increasing circulating androgens after oral testosterone undecanoate in, 713

Follicular fluid
androgen and 19-norsteroid profiles, in preovulatory, from stimulated cycles, 399
deoxycorticosterone, 21-hydroxypregnenolone and 11-deoxycortisol in human preovulatory, 337

Genital
fibroblasts from normal individuals and patients with androgen insensitivity, 7
Glucocorticosteroids
antagonist action of dexamethasone 21-mesylate in HeLa S_3 cells, 181
receptor(s)
a possible role for dephosphorylation, transformation, 653
bound to the antagonist RU-486, 513
development in the rat pancreas, 213
identification of two forms of molybdate-stabilized, 463
in human leukemic cell line CEM-C7, 329
in S49 mouse lymphoma cells, 59
interaction of, in chromatin and anti-receptor antibody preparation, 83
RU-29362, a powerful tool for the study of rat brain, 417

Gonadotropin-releasing hormone
ovarian steroid production, in rats treated with, 1
Granulosa cells
non-steroidal inhibition of aromatase activity in, 641
receptor of medroxyprogesterone acetate, 313

hCG
effect on 17-hydroxyprogesterone, in plasma and saliva, 251
HeLa S_3 cells
glucocorticoid antagonist action of dexamethasone 21-mesylate in, 181
4-Hydroxy-4-androstene-3,17-dione
influence of, in androgen metabolism in human foreskin fibroblasts, 131
19-Hydroxy-11-deoxycorticosterone
production from 11-deoxycorticosterone, 73
18-Hydroxy-11-deoxycortisol
a new steroid isolated from incubation of adrenals with 11-deoxycortisol, 105
17-Hydroxyprogesterone
production and characterization of antisera to, 375
responses to hCG, in plasma and saliva, 251
Hypothalamus
distribution and ovarian control of progesterone metabolizing enzymes in, of rat, 321
Hypothalamus–pituitary–gonadal axis
the effects of neonatal androgenization of male rats on testosterone metabolism by the, 493

Leydig cell(s)
effects of the transmethylation inhibitor *S*-adenosyl-homocysteine and of the methyl donor *S*-adenosyl-methionine on rat, function *in vitro*, 93
Leukemia
nuclear translocation of lymphoblast glucocorticoid receptors in childhood with, 15
Leukemic cell line CEM-C7
cortexolone fails to promote *in vitro* activation of cytoplasmic receptor in, 329
MCF-7 human mammary cancer cells
analysis of nuclear receptor from, by limited proteolysis, 35
an estrogen-dependent esterase activity in, 687
Medroxyprogesterone acetate
receptor binding, in granulosa cells of rat, 313
Mineralocorticoid
receptor
in a patient with congenital adrenal hyperplasia, 207
Monoclonal antibody
against rat estramustine binding protein in mouse, 509

Norethindrone
characterization of sulfated metabolites, in human with, 481

Ovarian carcinoma
androgen receptor in, 393
19-oxo-11-deoxycorticosterone
production from 11-deoxycorticosterone, 73

Phospholipase(s)
activity in human endometrium and amniotic membrane, 467
activity on epididymal nuclear and microsomal 4-ene steroid 5α-reductase, 581
Placenta
biosynthesis of equilin and equilenin, in horse, 137
biosynthesis of progesterone in the mitochondrial fraction of, in human, 161
5α- and 5β-pregnane-3,20-dione
contrasting effects of, on the motor activity of ovariectomized rats, 577

Progesterone
a simple procedure for enzyme labelling of, derivatives, 165
evaluation in plasma after oral administration of micronized, 241
receptor
affinity chromatography reagent for, 383
in human normal and neoplastic endometrium, 457
in human pregnancy, 473
Prostaglandin
effect of production, by a prostaglandin synthetase, 679
Prostate
nuclear 5α-reductase activity in the stromal and epithelial fraction of, 349
Prostatic adenocarcinoma
aromatase activity in rat with, 25

Receptor(s)
androgen(s)
in liver of monkey, 443
in ovarian carcinoma, 393
partial purification, 535
estrogen(s)
effect of zinc, in rat uterus, 303
in breast cancer, 219
in human pregnancy, 473
in rat uterine and anterior pituitary, 723
in the liver of monkeys, 443
in the turtle, 41
nuclear binding in the uterus of aged mice, 521
glucocorticosteroid(s)
anti-receptor antibody preparation, 83
a possible role for dephosphorylation in, transformation, 653
bound to the antagonist RU–486, 513
identification of two forms of molybdate-stabilized, 463
in human leukemic cell line CEM-C7, 329
in S49 mouse lymphoma cells, 59
interaction of, with chromatin and anti-receptor antibody preparation, 83
in the rat pancreas, 213
RU-28362, a powerful tool for the study of rat brain, 417
Progesterone
an affinity chromatography reagent for, 383
distribution of, between cytosol and nuclear fraction in normal and neoplastic human endometrium, 457
in human pregnancy, 473
RU-486
in humans, 279
steroid hormones
antagonism and a cyclic model of, kinetics, 173
5α-Reductase
activity in endothelial cells from human umbilical cord vessels, 561
in the central nervous system of rat and mouse, 215
RU-29362
a powerful tool for the study of rat brain glucocorticoid receptors, 417
RU-486
and glucocorticoid receptor, 513
plasma concentrations and receptors in human, 279

Sex hormone binding globulin (SHBG)
and albumin concentration in human cerebrospinal fluid, 557
measurement of, binding capacity in human serum, 527

Steroid(s)
adrenal C_{19}-5-ene, effect in rat pituitary gonadotrophs, 539
faecal loss, in healthy subjects during short-term treatment with ursodeoxycholic acid, 503
hormone biosynthesis by a sesterterpene pathway, 99
receptors
in the gut and kidney of frog, 627
Steroid binding proteins
contraceptive steroid treatment and, to estradiol and testosterone in the cynomolgus monkey, 227
Steroid-21-hydroxylation
in human preovulatory follicles, 337
Sterol hydroperoxide
metabolism by *Salmonella typhimurim*, 259
Steroid sulfotransferase
in porcine endometrium, 285

Tamoxifen
analysis of, and metabolites, in human plasma, 547
Testis
concentration of 5α-androstane-3α,17β-diol and 5α-androstane-3β,17β-diol in, 345
Testosterone
evaluation in amniotic fluid, for fetal sex determination, 273
metabolism of, in medial basal hypothalamus, 407

Uterus
effect of zinc, on estogen receptors, in rat, 303

We wish to thank the following persons for their kind cooperation in reviewing papers for the *Journal of Steroid Biochemistry*:
Drs E. Brunswick, Ann Arbor, U.S.A.; E.M. Burchell, Edinburgh, Scotland; S. Cekan, Stockholm, Sweden; M.M. Compton, Chapel Hill, U.S.A.; A. Crastes De Paulet, Montpellier, France; L. Dehennin, Fresnes, France; J.D. Few, London, England; N. Giambiagi, Paris, France; M.E. Harper, Cardiff, Wales; W. Heyns, Leuven, Belgium; R.A. Hiipakka, Chicago, U.S.A.; C. Horhold, Jena, G.D.R.; L.K. Johnson, San Francisco, U.S.A.; H. Klein, Hamburg, F.R.G.; M. Lapointe, San Francisco, U.S.A.; N.J. MacLusky, New Haven, U.S.A.; M. Motta, Milan, Italy; T. Ojasoo, Paris, France; M.J. Reed, London, England; J. Saez, Lyon, France; A.E. Wakeling, Macclesfield, England.
